Hail Suppression Postponed For '55

A plan to operate a hail suppression scheme in the Three Hills area has been postponed until next year. The original intention was to engage a weather modification, organization which, by means of cloud seeding with silver iodide, claimed it could decrease the incidence of and the damage therefrom.

The original plan was to raise the money necessary to operate the scheme by means of a special levy on all land in the Kneehill municipality. While from 75 to 90 per cent of the farmers in the area are reported to have expressed approval of such a levy it was found that this was not possible under the Municipal Act. By this time it was felt that there was not sufficient time to go ahead with an alternative plan this year. However, a committee has been set up with representatives from Three Hills, Trochu, Torrington and Swallow to implement a hail suppression scheme next year.

HOLDS MEETING MORAVIAN CHURCH

Delegates from ten Moravian congregations of the Canadian District of the Moravian Church assembled at Camp Van Oke, South Cooking Lake, Southeast of Edmonton, on June 27-29, to review the work in the district for the past five years and legislate policies for further advancement.

In view of the fact that the Moravian Church throughout the world will be celebrating its 500th anniversary in 1957, program committees are appointed to set definite local goals that will help to make the 500th anniversary of the Moravian Church a meaningful milestone in the history of the church.

Mr. Adam W. Luft and Mrs. W. F. Kroening represented the Didsbury Moravian congregation at this twelfth Synod of the Canadian District.

Harmattan News

(From Our Own Correspondent)

The Harmattan School finished up another year's work with their annual School Picnic held at the Hall on account of rain, on Wednesday, June 30th. Everyone enjoyed a very delicious buffet lunch provided by the Mothers of the district. This was followed by a program of races for the different age groups, both boys and girls, sock races, and a tug-of-war in which the men of the district took part. Both children and grown ups seemed to enjoy these events very much. Ice cream was provided for everyone. The afternoon's fun ended with a baseball game in which the married men played against the boys.

Mr. Ed Johnson who arrived Friday, July 1st from Walton, Liverpool, England, will be the guest of his nephew, Mr. Bert Johnson and Mrs. Johnson for the next month.

Mr. and Mrs. W. Turnbull left on June 30th for a vacation in Vancouver where they will visit Mr. Turnbull's parents. They were accompanied by Miss Wilma and Robert Turnbull.

Mr. and Mrs. A. V. Johnson were hosts to their family and relatives when 20 guests sat down for dinner on Sunday, July 3rd, the occasion being a celebration of their 25th Silver Wedding Anniversary which is on July 5th. The table was centered with a vase of yellow roses and a three-tiered wedding cake. After dinner "open house" was held and tea served to people of the district who called to give them their best wishes. Included among the dinner guests were Mr. Ed Johnson of Walton, Liverpool, England, Mrs. Pink and Mr. and Mrs. Tommy Brown and family of Calgary, Mrs. Manson of Harmattan and Miss Carol Owens of Carstairs.

The Harmattan Ball Club played at Westerdale on Sunday, the score being Westerdale 8, Harmattan 6.

We are sorry to hear Mrs. Crawshaw has been a patient in the hospital for several days.

LOCAL MILITIA ATTEND CAMP

WAINWRIGHT — More than 400 members of Canada's "citizen army" are encamped this week in the sprawling Alberta military base, including five soldiers from Didsbury. Attending the week-long concentration of Western Canada's armoured militia regiments are Didsbury residents with the King's Own Calgary Regiment, the 14th Armoured, included.

Capt. K. O. Thring, A/Sgt. C. D. Johnson, W. G. Miller, A/Cpl. N. L. Neufeld and Tpr. W. E. Dunsmeuir.

QUEBEC CITY AHOY is the call of Montreal's four raft-borne adventurers, who have left Sorel and are

now somewhere on the river between there and the provincial capital. Above is the frail-looking craft

as it left Longueuil under tow to a motorboat. Right, top, the quartet wave goodbye to assembled crowds.

Stage Coach Present At Local Jubilee Celebration

Once again we are forced to try and write a story before it really happens. We're speaking of the Didsbury Jubilee Day which is in the process of getting under way as we sit at our not-so-faithful typewriter. The weatherman is not co-operating too well, but a glance on the streets of the town this morning revealed that a good turn-out of old-timers was assured.

They tell us the stage coach, a big feature of the day, left Olds on schedule and should arrive here at approximately 4:00 p.m. (Tuesday). Fifty-year veterans will have the opportunity of a short ride on or in the coach and pictures will be taken. One store window that did catch our eye this morning was that of a local hardware store. Many many old-time pictures are on display and it was very interesting to browse around for a few minutes and see how things used to be done and how some used to look in their Sunday best. We don't know just how long this display will be available to the public but we would suggest that it is well worth your time to take a peek, if at all possible.

We trust that we will be able to give you a more complete write-up on this big day in our next issue.

WEST NOTES

Lutheran Church Holds Convention

(From Our Own Correspondent)

The 24th District Convention of the Alberta-British Columbia District of the Lutheran Church-Missouri Synod will convene in Edmonton, at Concordia College, July 5 to 8. Redeemer Lutheran Church of Didsbury has elected Mr. J. C. Folkman as their official delegate. Rev. E. B. Fox will also attend.

Mr. H. W. Folkman, a member of the district finance and publicity committee, plans to be in attendance part time.

Rev. E. B. Fox received a solemn call from the Claresholm parish. After presenting this to the congregation, the congregation voted unanimously that he continue his present work.

A few days after this meeting, the Pastor received a second call, this time from Zion Lutheran Church at Melville, Saskatchewan. This call has also been presented to the congregation. The Pastor has returned the Claresholm call. No definite decision has been reached on the Melville call.

Future plans have been made to conduct the annual Vacation Bible School from July 18 to 29. The Pastor has prepared a study on the life and missionary journeys of St. Paul. V.B.S. is open to all children in the district.

On July 25 a special treat has been arranged for the people in this district. Mr. Otto Bakman, rated among the top three concert harpists in America today, will present a sacred harp concert on his \$10,000 harp. This will be held in Redeemer Lutheran Church and the public is invited.

Premier Manning and his Social Credit government were returned in last Wednesday's election with a greatly reduced majority. At the time of going to press the final results have not been received from all ridings but two cabinet ministers have thrown in the towel and one other is hanging on the ropes.

Hon. Ivan Casey and Hon. Lucien Maynard have lost their seats and the fate of Hon. Mr. Gerhardt rests on a count now taking place.

In our own particular constituency Mr. J. L. Owens of Carstairs defeated Mr. Ben Brown of Acme by an unofficial margin of 370 votes. It is interesting to compare the vote in 1952 with the 1955 vote. At that time (1952) the total vote was 4,124. Last week it was 4856. In '52 Social Credit were blessed with a majority of 1,618 over the Liberals; in '55 they had a majority of 370.

The ballots have been cast, the government we have had for 20 years is back in power. There is no way now of reconsidering what we might have done on election day. At the moment we should all be behind the government and hope that certain matters which were brought to a head at the time of the election will be dealt with in a legal and satisfactory manner.

MUSTA BEEN GOOD !!!

A wealthy farmer decided to go to church one Sunday. After the service, he approached the preacher with much enthusiasm: "Reverend, that was a damned good sermon you gave."

"I'm glad you liked it, but I wish you wouldn't use those terms in expressing yourself."

"I can't help it, Reverend I still think it was a damned good sermon — and I was so impressed I put a hundred dollar bill in the collection box."

"The hell you did!" exclaimed the preacher.

What Other Papers Say . .

The Hater, Hated

We have a little communication on our desk asking us to protest editorially against a series of films being prepared for TV by the Department of Defense and the CBC. One of these will tell the story of the building of the Rideau canal which apparently was built originally as a defense measure in case there should be war with United States. The letter said that this might stir up Canadian enmity against the United States and set up tensions between the two countries. We are confident that United States citizens will not take umbrage at this little TV epic because they will be blandly unaware that

it exists. If some should see it and if it does make offensive comparisons they will shrug indifferently.

On the Canadian side it will be treated as a story of fleeting interest and forgotten except by the people who want to remember that United States ever threatened Canada. The popular nation south of the border that Canada is heavily covered with snow ten months is the year is probably why Americans never had much interest in its neighbor to the north except for isolated instances.

Anyone whose nationalistic tendencies would be bolstered up by a mild little TV film or whose aggressive ideas would be much inflamed by it is already a secret hater and a covert jingoist. He is just looking for a little fuel to keep up the fire.

Some while ago a group protested the Stratford summer theatre doing "The Merchant of Venice" for they said it would stir up hatred against the Jews. You can't stir up anything that isn't latent in the soul.

Playing "The Merchant of Venice" will not engender any new ideas about the Jewish race. Some people who hate others on the basis of race or religion may find some fuel for fires in the plot, though how they could hear Shakespeare's great lines "Hath not a Jew eyes?" and not be humbled, we cannot understand. People hate because they want to hate and they look for excuses to do it.

So people will hate Americans because they want to hate. The various irritations and annoyances occasioned between most Canadians and Americans are just those of the usual neighbors with a common fence, a family closeness and squableness, exaggerated by similar personalities.

Those who hate United States want to hate that country; those who hate Jews, want to hate them and they will find fuel one place or another: those who hate negroes will do the same; those who hate the people of other faiths will likely dredge up their material from the Bible, the book which tried to teach tolerance; those who hate art drag up, not the good examples, but the blots of the untalented.

Personally we have a couple of hatreds tucked away in our system. One of them is a hatred of haters and we get quite a lot of fuel for this particular "will to hate" in the publicity releases which come to our desk.

BRITISH LABOR TROUBLES

Prime Minister Anthony Eden is surely not getting much co-operation from organized labor in getting the economy of high country readjusted. These dock workers seem to want everything else but a settlement. Harsh measures will ultimately have to be applied or Britain's export trade will be permanently damaged. The foolish strike of the passenger ship stewards soon collapsed when steps were taken to call hundreds of the men, otherwise exempt on account of their particular duties, into the army. Also, the shipowners speedily handled the traffic by means of an airlift. All those rich tips went down the drain. Incidentally, one of the reasons why air travel is gaining in popularity is the elimination of the "tip" hazard. It is a vicious racket at best.

MEN GOING PINK

About a year ago an American manufacturer got an idea — pink shirts. "About as likely as getting men to wear lace panties," was the comment of a retailer.

But he was wrong. Pink shirts for men now rank the most popular color, next to traditional white, in the United States and Canada. The trend started in the U.S. last fall, caught on in Canada this spring. Most shirt manufacturers report the color is holding on and expect pink sales to continue high through the fall. Orders to date for fall stock support their predictions.

DRASTIC TREATMENT

Mrs. White was taken suddenly ill in the night, and the new doctor was called because he was the quickest available.

After a look at the patient, the doctor stepped outside the sick room to ask Mr. White for a cork-screw. Given the tool, he disappeared but several minutes later was back, demanding a pair of pliers.

Again he disappeared into the room of the moaning patient, only to call out again, "A chisel and a mallet, quickly."

White could stand it no longer: "What ails her, Doc, for gosh sakes?" "Don't know yet," was the reply. "Can't get my instrument bag opened."

The Financial Post. In Parliament he painted a gloomy picture. He offered little hope of clearing Canada's overloaded storage before the new crop starts rolling.

Growing wheat is only one part of Canada's job. We must also sell it. And we have not been selling it nearly as fast as we have been growing it. Long before this every possible salesman should have been encouraged to get on the job. Instead we have persisted in maintaining an absolute government monopoly in marketing.

If Parliament lacks the nerve to face up to the situation and do what is necessary then let us hope that Walter Gordon's economic commission will be permitted to investigate and prescribe promptly. The health of a major industry involved

WAAAY!

Some farmers in the picturesque,
low-lying Suffolk Broads district
of England bring in the hay by
water. So it was logical for a
British boat builder to use light-
weight aluminum to produce a
650-pound punt capable of carry-
ing a load of hay more than six
times its own weight.

In Canada aluminum is better
known among farmers as a non-
rusting, heat-reflecting, easily
handled material for barns and
roofs and silos... though of
course it has many other farm
uses, from milk cans to windmill
blades. No hay-boats, though.

Social Credit
Aims High ! !

"British Columbia's breezy, boun-
cing, fast-talking Premier W.A.C.
Bennett says Social Credit's next
target is the House of Commons,"
says Michael Barkway, writing a
series on Social Credit in The Finan-
cial Post.

His Social Credit appeal will be
based on these main elements, says
the Post:

A 90-cent dollar to help manu-
facturers and exporters.

A free-spending program of pub-
lic investment to boost Canadian
development.

A knee-thumping campaign in
the 40-line Social Credit style.

A pledge of "good, clean govern-
ment."

A bulwark against socialism.

"The offer of a fresh, bright alter-
native to the 'worn-out Liberals.'"

Enough financial orthodoxy to be-
lieve business, coupled with enough
unorthodoxy or talk of it to en-
courage the dissatisfied.

Surplus disposal through accep-
tance of sterling or by free gift to
underdeveloped countries. (How this
will be done is a total mystery.)

CHRISTIAN SCIENCE

Humanity's need for clear think-
ing and Christian living will be
stressed at Christian Science ser-
vices this Sunday. Reading from the
King James Version of the Bible
and "Science and Health with Key
to the Scriptures" by Mary Baker
Eddy will comprise the Lesson-Ser-
mon entitled "Sacrament." The fol-
lowing passage will be among those
read from Science and Health: "Ask
yourself: Am I living the life that
approaches the supreme good? Am
I demonstrating the healing power
of Truth and Love? If so, then the
way will grow brighter 'unto the
perfect day.' Your fruits will prove
what the understanding of God
brings to man" (496:9 Ask-14). The
Golden Text is from Leviticus
(19:2): "Speak unto all the con-
gregation of the children of Israel, and
say unto them, Ye shall be holy: for
I the Lord your God am holy."

DAVY CROCKETT

A mother, who ordinarily has a
lot of trouble keeping up with her
children's interests, reports that she
has now made a very big mistake
about Davy Crockett. Although she
has heard the song about the king
of the wild frontier some thousand
times, apparently she hadn't listened
hard enough, for she had one part
of it badly twisted — to the de-
lightful scorn of her offspring.

She says they rolled on the floor
laughing at her when she inquired
how Davy Crockett could have made
such a grand reputation in so short
a time, having been "killed in a bar
when he was only three."

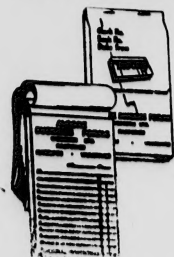

LIKES THE TREATMENT

Against his better judgement a
farmer had hired a rather elderly
man to help with the chores. After
supper on the first day the hired
man excused himself and said he
was going to turn in early.

At three o'clock the next morn-
ing while it was still dark, the far-
mer arose to begin the day's work
and presently called the old gent to
breakfast. The new man ate heartily
and when he finished he headed
back toward his room saying to his
employer:

"Boss, this is the place for me.
Two suppers in one night!"

Weed Control With Chemicals: Farm-
ers are well aware that control
with chemicals is sound economical
practice. Calibration is an impor-
tant first step for it is in this way
that the number of gallons of
solution per acre is determined. The
proper rate and time of spraying
are important. These conditions
vary from weed to weed and crop to
crop with such things as the stage of
growth being determining fac-
tors. Oats are more sensitive to
2,4-D than wheat or barley. Oats
can be sprayed from the 4 to 6 leaf
stage but should not be sprayed be-
tween the six leaf and early shot
blade. Treatment can be done then
from the early shoe blade stage up
to the early boot stage, also after
the crop is headed and the bloom
is gone. Wheat and barley can be
safely treated from the four leaf
up to the early boot stage. The a-
mine formulation of either 2,4-D or
MCP is the best to use on tarax-
acums. It is less harsh in its action
than the 2,4-D formulations, ester
that is. If you have a spraying prob-
lem don't forget that we are near
to you as your nearest telephone
and ready to give you our best ad-
vice.

HOW MAN LIVES

Any average man who has lived
to 70 years has consumed 11, his
lifetime — 100 head of cattle, 200
lambs, 20 sheep, 310 pigs, 2,400 chick-
ens, 26 acres of wheat, 6 acres of
fruit. He has drunk enough water
to fill a good sized lake and his need-
ed fuel in heat units equals the bur-
ning of 150 big trees.

He spent 3 1/2 years eating and
drinking, 2 years dressing and un-
dressing, 2 1/2 years going to and from
work and 25 years sleeping. He
worked 22 years.

Population Grows
In United States

The United States is Canada's best
customer and in the years ahead
will likely take ever increasing
amounts of raw products, particu-
larly food. Last year that country took
33 per cent of all Canadian exports.

The population of the U.S. is
mounting faster than ever before.
By the end of this century it will
probably total 275 million compared
to the present level of 185 million.
This is the opinion of Kingsley Davis,
professor at Columbia College. The
present rate of increase is not likely
to slow down, he says, because most
of it is due to natural growth. Im-
migration is a negligible factor. Pro-
duction of sufficient food will pose
a problem, he says, since it is dif-
ficult to increase continuously the
production per acre by something
like 25 per cent every 15 years,
which is the rate the population has
grown since 1940. He cautioned
against being misled by farm sur-
pluses and says they are temporary
and largely the result of excessively
high price supports.

WEDDINGS

MALOFF - KRUEGAR

Married recently in Mount Calvary Lutheran Church in Calgary, were Miss Helen Deane Kruegar, daughter of Mr. and Mrs. B. D. Kruegar of Didsbury, and John Maloff and the late Mrs. Maloff of Exshaw. Officiating at the late afternoon ceremony was Rev. A. F. Miller.

Given in marriage by her father the bride chose a ballerina dress of net over taffeta with lace inserts. The small lace bolero with tiny point sleeves featured a net yoke with lace applique and tiny lace collar. A jewelled Juliet cap held her illusion fingertip veil, and she carried a bouquet of red roses. Her only ornament was a pearl necklace, the gift of the groom.

Mrs. Neil Querna and Miss Joan Kruegar attended the bride in identical ballerina frocks of net and lace over taffeta, in pastel shades of blue and yellow respectively. Their net

bandeaux were outlined in sequins and they carried carnation nosegays to contrast with their frocks. Best man was Harold Quern of Calgary, A. J. Kennedy was organist, and soloist for the ceremony was

A. L. Court of Exshaw.

At the reception at the Shangri-La, the toast to the bride was given by Edward Buhr of Didsbury. Pink carnations and gladioli decorated the reception rooms.

For travelling, the bride donned a navy suit with white accessories and a red rose corsage.

Following a honeymoon to U.S. the couple will reside in Exshaw.

ALBERTA'S Golden Jubilee

"1955" is Alberta's Golden Anniversary Year. It was in 1905 that this territory joined Canada as a province. Now Alberta is recognized as a region with as bright a future as any of the provinces which go to make up the Dominion of Canada.

Agriculture has made the greatest contribution to the economic advancement of Alberta and the Alberta Wheat Pool pays its tribute herewith to the men and women engaged in that great industry.

Within the space of a single generation the enterprising and energetic farm people of Alberta have created a record of diversified production of quality food products which is unsurpassed by any other province.

The wealth produced by Alberta farmers has permeated the economy of the province to a greater extent than all other sources of wealth combined. It sustains the villages, towns and cities and provides the basis for employment for most Alberta people.

Agriculture provides the most freight for the railways and other forms of transportation, the main source of raw materials for Alberta manufacturers, and a constant inward stream of wealth from the substantial annual exports of food to other parts of Canada and other nations.

While Alberta people celebrate the province's Golden Anniversary they should keep in mind the immense contribution made by the people on Alberta farms to the prosperity and progress of this growing province.

Fashionable new riding habit

You travel in fashion when you ride in a new De Soto!

Here's exciting style that appeals to people who like to go places. From bumper to bumper, this new motion-designed car has The Forward Look of eager action.

De Soto is also powered for action! It puts a mighty 185- or 200-h.p. V-8 engine at your command. It brings you the smoothness and con-

venience of PowerFlite automatic transmission, at no extra cost.

De Soto is a smart "bug," too! No other Canadian car has a roomier body or more performance, convenience, and safety features than this luxurious, long beauty. Yet you can own a big new De Soto for less than many models of medium-size cars. See or phone your dealer for the facts. He'll be glad to arrange a demonstration drive for you.

M.V.B.C. NEWS

(From Our Own Correspondent)

Mr. and Mrs. Lusk left early Saturday morning for their new appointment in Indiana. We regret seeing them leave, but we are sure that some one will take Mr. Lusk's place who will be fully qualified. We wish them every success in their new venture.

Two former graduates of M.V.B.C. have graduated from Cascade College, Portland recently. Miss Grethe Anderson, B.N. has received her Bachelor of Arts Degree and is planning to go to the Mission field soon.

Mr. Myron Tweed has taken his degree in Music, and will enter Westminster School of Music this fall. Myron will be in this community with the quartette of which he is a member, some time this fall.

The Camp Ground is a busy place. Conference convened on Monday afternoon and will continue until Thursday, then in the evening of that day the meetings in the Tabernacle will begin. You will want to hear the outstanding evangelist Rev. Beck. His wife also is an accomplished musician and will be playing the organ that has been secured for the services. Children from the town are welcome to attend the children's meeting held each day. See the posters for information. The Camp is fortunate to have Mrs. Abe Sawatzky and Mrs. Neil Neufeld as the cooks this year.

Mr. and Mrs. Jake Miller arrived on Sunday evening and were guests of Mr. and Mrs. Arthur Eby. It was their wedding anniversary. Mr. Miller is a graduate of the College and will take pastoral work in the church this year. Mrs. Miller is assisting in the children's work this year.

The rain has made it impossible to cut the long grass around the grounds, but the caretaker will get that done as soon as the weather is dry again. It is difficult to get the work done when the rain comes at this time, but we are glad for the moisture, the farmer's needed it quite badly I believe.

President Taylor and his family arrived back on Campus in time for Conference. It is good to see them again and have them on the grounds. Mr. Taylor is a very busy man each summer, his services being required in many fields of religious services. He will be taking part in the Gull Lake Camp later on.

BOXCAR ALLOCATION DRAWS COMMENT

The climate of western Canada is to great variation and, therefore, the amount of grain produced varies tremendously from year to year. During periods of low yields there is usually adequate space in terminal and country elevators to take care of grain as fast as producers wish to deliver. In times of good yields, however, the elevators become congested, so that deliveries can be accepted in the country only as space is made available by sales and shipments from the terminals. When this condition exists, the railways are unable to place enough cars at country elevators to take care of all of the grain producers wish to deliver because these cars cannot be unloaded.

It is, therefore, necessary that cars be rationed. They must first of all be rationed to provinces and then to individual shipping points. This, in recent years, has been accomplished by placing cars in sufficient numbers to haul whatever

EAST NOTES

(From Our Own Correspondent)

Mr. and Mrs. Alfie Thompson and Beverly, Mrs. Donald Thompson and Mrs. Lucy Thompson left Sunday morning to Waseg B.C. to attend the Golden Wedding anniversary of Mr. and Mrs. George Hannant brother of Mrs. Lucy Thompson.

Robert Bittner left for Banff to work in a Garage for the summer months.

A double birthday party was held Sunday at Mrs. Brander's for Bobby Marsh and Lisa Brander. A bunch of young folks gathered there for the big surprise.

Amos Neufeld and Sid Young both took a job at Banff on the Brewster Ranch for the summer.

Mr. and Mrs. Peter Schumaker and Mr. and Mrs. Alfie Thompson and George Louis were last Sunday evening callers on Mr. and Mrs. Herb Ziegler.

The following people were Sunday evening callers on Mr. and Mrs. Peter Schumaker, Mr. and Mrs. Otto Bittner and Ralph and Mr. and Mrs. Raymond Schumaker, Mr. and Mrs. Walter McCulloch and Leonard, Mr. and Mrs. Stanley Schumaker, and George Louis and Donald Thompson.

quota is established. Producers, generally speaking have no complaint on the way cars are distributed between points. Temporary inequalities are the result of special shipping orders or the whim of railway crews.

The other form of rationing is that which provides for the distribution between elevators of the cars which are placed in any shipping point, and it is to this that the Wheat Pools take exception on the grounds that the producer is being deprived of a basic right. Nearly fifty years ago the right to determine the destination of his grain was given to the producer after a long and bitter struggle and embodied in the Car Order Book section of "The Canada Grain Act." This right still exists officially but in actual practice has been taken away by the conditions existing during the last few years.

For this reason the Wheat Pools have suggested a method of allocating boxcars among country elevators which would take into consideration the wishes of producers. Prior to the harvest each year farmers would have the opportunity to indicate the elevator to which they wished to deliver their grain. A car cycle would then be set up on the basis of the preference shown by the producers and the railways would be instructed to distribute boxcars accordingly.

The Pools are not making representations on behalf of their members only. Instead, they are asking for legislation or regulations to establish for all grain producers a right which parliament recognized years ago.

Under the system of allocating cars equally among elevators at a point, competition between companies is greatly restricted because point are compelled to divide their grain equally between the elevator companies represented. The Pools' proposal, would to a large measure, restore competition and enable a producer to choose freely between elevators when delivering his grain.

GOLF NOTES

On June 30 there 13 ladies playing in the tombstone tournament which was won by Mrs. Jay Tuglie. There were a few games rained out but tea was enjoyed anyway. Tea money was \$1.75.

On July 7 the competition will provide something novel in golf as it is a One Club Tournament. Tea will be served about 4 p.m. and tee-off time is 2:30 to 2:35.

Members are reminded to play their round games as the first one to complete her games will get a prize, so the secretary has been told.

MORE ABOUT RULES:

Rule 14: Ball Falling Off Tee: "If a ball when not in play, falls off a tee or be knocked off a tee by the player in addressing it, it may be re-teed without penalty, but if a stroke be made at the ball in these circumstances whether the ball be moving or not, the stroke shall be counted."

Rule 16: Through the Green: "A ball shall not be touched purposely and must be played as it lies except as otherwise provided for in Rules or Local Rules. The player may, without penalty, touch his ball with his club in the act of addressing it provided he does not move the ball."

Rule 32: Casual water, ground under repair, hole made by burrowing animal: 1. If a player's ball lies in or touch casual water, ground under repair, or a hole cast or runway made by a burrowing animal, a reptile or bird the player may obtain relief as follows: Through the green, the player may lift and drop the ball without penalty as near as possible to the spot where it lay, but not nearer the hole, on ground which avoids these conditions.

3. Ball Lost. If a ball be lost under a condition covered by the rule, a ball may be dropped without penalty as near as possible to the place where the ball entered the area, on ground which avoids these conditions but not nearer the hole. In order that a ball be treated as lost, there must be reasonable evidence to that effect.

Legion Auxiliary Regular Meeting

At the last regular meeting for the spring season of the Ladies' Auxiliary to the Canadian Legion B.E.S.L. held in the Masonic banquet room on June 30 there were 15 members present.

Mrs. Mullen thanked all the members who had worked at the three sewing bees to make scarves for the Scouts and Cubs. Special mention was made of the extra work done on them by Mrs. S. Wilkins. Cost of the materials was \$23.03.

The executive was given power to carry on during the summer months.

The highlight of the meeting was a report given by Mrs. H. Gillrie who had been a delegate to the provincial convention held in Calgary. Her report included timely information about ritual flags and uniforms, as well as vivid word pictures, sometimes humorous, sometimes poignant of the convention itself.

Some donations were discussed and \$10.00 was voted toward the trip to the Mayo Clinic of the Zidar baby from Bellevue.

After the meeting the members joined the Legion members for a social evening directed by Mrs. Reiffenstein. Entertainment was provided by most of the members in stunts, telling anecdotes and a sing song. The Legion Airs quartette sang 2 numbers. Lunch was served.

Mr. and Mrs. Vern Gillrie and son of Calgary were Sunday visitors with Mr. and Mrs. Fred Reiffenstein and family.

Mr. and Mrs. Roy Reiffenstein are holiday visitors at the home of the former's parents.

Loretta Reiffenstein has accepted a position in the office of John Deere Plow Co. in Calgary.

ACCIDENTS HAPPEN : : :

Rudy Erhardt who is working for W. J. Scheidt was driving a tractor down the highway towards home on a recent afternoon, when a fast driver coming up from behind, sent the tractor into the ditch but Rudy hung on and stopped the tractor before it could do more damage to either the coffee shop or Elkin's Service Station.

The car was badly damaged while the tractor's damage amounted to \$300.

The Insurance Company of the car has adjusted the tractor damage very satisfactory since.
